INDEX TO VOL. XXXIII (B)

AUTHORS' INDEX

Acharya, B. N. .. *See* Devadatta and others.

Ahsan-ul-Islam .. The comparative histology of the alimentary canal of certain fresh water teleost fishes, 297.

Alikunhi, K. H. .. On the reproductive organs of *Pisione remota* (Southern), together with a review of the family Pisionidæ (Polychæta), 14.

Appanna, T. C. and Devadatta, S. C. Studies in fish liver oils, III, 199.

Bharadwaj, U. R. and Singh, Inderjit Lactic acid production in unstriated muscle and its relation to tonus and inhibition, 257.

Chacravarti, A. S. .. *See* Khanna and Chacravarti.

Chari, S. T. .. *See* Venkataraman and Chari.

Daji, J. A., Patel, M. K. and Kibe, M. M. Molasses and *mohua* flowers as sources of energy for azotobacter, 322.

Damodaran, M. and Singh, Chanan Amide synthesis in plants, V, 159.

De, Rajat .. *See* Lal and others.

Devadatta, S. C., Acharya, B. N. and Nadkarni, S. B. Effect of germination on the nutritional qualities of some of the vegetable proteins, 150.

See Appanna and Devadatta.

Jayaraman, R. .. Observations on the chemistry of the waters of the Bay of Bengal off Madras City during 1948–49, 92.

Jones, S. and Menon, P. M. G. Observations on the life-history of the Indian Shad, *Hilsa ilisha* (Hamilton), 101.

Kapoor, S. L. .. The role of type of seed in the culture of potato. Relative vigour of apical, vertical and basal sets, 277.

Kaur, (Miss) Ravinder .. *See* Ranjan and Kaur.

Khanna, K. L. and Chacravarti, A. S. The non-sugars in sugarcane juice and their bearing on clarifying properties: a study in relation to the open pan industry, 204.

Kibe, M. M. .. *See* Daji and others.

Kothiyal, M. D. .. *See* Ranjan and Kothiyal.

.. *See* Ranjan and others.

Krishnaswamy, N. .. Cation exchange capacity of *Avaram* resin, 178.

Lal, K. N. and Yadav, B. S. Studies in crop physiology. Effect of farmyard manure and castor cake upon development, yield and seed quality of wheat, 69.

Lal, K. N., De, Rajat and Rao, M. S. Subba Studies in crop physiology. Effect of nitrogen, phosphorus and potassium deficiencies on respiration rate of sugarcane leaves, 1.

Menon, P. M. G. .. *See* Jones and Menon.

Nadkarni, S. B. .. *See* Devadatta and others.

Nagappa, Y. .. The stratigraphical value of miscellanea and pellatispira in India, Pakistan and Burma, 41.

Naidu, (Miss) K. G. Raja Bai Some stages in the development and bionomics of *Ocypoda platytarsis*, 32.

Narasimhachar, S. G. .. An embryological study of *Mimosa pudica* Linn., 192.
A contribution to the embryology of *Drosera indica* L., 290.

Nevgi, G. V. .. *See* Ramakrishnan and Nevgi.

Patel, M. K. .. *See* Daji and others.

Prakash, Atma .. *See* Ranjan and others.

Ramakrishnan, C. V. and Nevgi, G. V. Studies on enzyme 'lipase', 268.

Ranjan, Shri and Kaur, (Miss) Ravinder Studies on hormones, I, 221.

Ranjan, Shri and Kothiyal, M. D. Studies on plant growth in relation to different soils and manures, I, 282.

Ranjan, Shri, Kothiyal, M. D. and Prakash, Atma Studies on plant growth in relation to different soils and manures, II, 288.

Rao, K. Virabhadra .. Observations on the probable effects of salinity on the spawning, development and setting of the Indian backwater oyster, *Ostrea madrasensis* Preston, 231.

Rao, M. S. Subba .. *See* Lal and others.

Sadasivan, T. S. ... Role of trace elements in control of root-infecting fungi, 135.

Sarojini, T. S. .. Soil conditions and root diseases, II, 49.

Singh, Chanan .. *See* Damodaran and Singh.

Singh, Inderjit *See* Singh and Singh.
See Bharadwaj and Singh.

Singh, Sunita Inderjit and Singh, Inderjit — A comparative study of the contractile mechanism of unstriated muscle, 165.

Active relaxation of unstriated muscle produced by adrenaline, 184.

Subramanyam, K. .. On the probable origin of the unilocular ovary of the compositæ from the stylidiaceæ, 327.

Venkataraman, R. and Chari, S. T. — Seasonal variation in the chemical composition of Mackerel (*Rastrelliger kanagurta* Russel), 126.

Yadav, B. S. .. *See* Lal and Yadav.

TITLE INDEX

Avaram resin, cation exchange capacity (Krishnaswamy), 178.

Compositæ, unilocular ovary, on the probable origin, from the stylidiaceæ (Subramanyam), 327.

Crop physiology, studies, effect of farmyard manure and castor cake upon development, yield and seed quality of wheat (Lal and Yadav), 69.

Crop physiology, studies, effect of nitrogen, phosphorus and potassium deficiencies on respiration rate of sugarcane leaves (Lal and others), 1.

Drosera indica L., a contribution to the embryology (Narasimhachar), 290.

Enzyme 'lipase', studies (Ramakrishnan and Nevgi), 268.

Fishes, certain fresh water teleost, the alimentary canal, the comparative histology (Ahsan-ul-Islam), 297.

Fish liver oils, studies, III (Appanna and Devadatta), 199.

Hilsa ilisha (Hamilton), Indian shad, life-history, observations (Jones and Menon), 101.

Hormones, studies, I (Ranjan and Kaur), 221.

Mackerel (*Rastrelliger kanagurta* Russel), chemical composition, seasonal variation (Venkataraman and Chari), 126.

Mimosa pudica Linn., an embryological study (Narasimhachar), 192.

Miscellanea and pellatispira in India, Pakistan and Burma, the stratigraphical value (Nagappa), 41.

Molasses and *mohua* flowers as sources of energy for azotobacter (Daji and others), 322.

Muscle, unstriated, active relaxation, produced by adrenaline (Singh and Singh), 184.

Muscle, unstriated, contractile mechanism, a comparative study (Singh and Singh), 165.

Muscle, unstriated, lactic acid production in, and its relation to tonus and inhibition (Bharadwaj and Singh), 257.

Non-sugars in sugarcane juice and their bearing on clarifying properties: a study in relation to the open pan industry (Khanna and Chacravarti), 204.

Ocypoda platytarsis, development and bionomics, some stages (Naidu), 32.

Ostrea madrasensis Preston, Indian backwater oyster, probable effects of salinity on the spawning, development and setting, observations (Rao), 231.

Pisione remota (Southern), the reproductive organs, together with a review of the family Pisionidæ (Polychæta) (Alikunhi), 14.

Plant growth, studies, in relation to different soils and manures, I (Ranjan and Kothiyal), 282; II (Ranjan and others), 288.

Plants, amide synthesis, V (Damodaran and Singh), 159.

Potato, culture, the role of type of seed. Relative vigour of apical, vertical and basal sets (Kapoor), 277.

Proteins, vegetable, some, nutritional qualities, effect of germination (Devadatta and others), 150.

Soil conditions and root diseases, II (Sarojini), 49.

Trace elements in control of root-infecting fungi, role (Sadasivan), 135.

Waters of the Bay of Bengal off Madras City during 1948–49, chemistry, observations (Jayaraman), 92.
